Dear Mr. Weisberg:

Hi, I hope all is well.

Could you please tell me if there is in fact in existence a copy of a Secret Service Manual of guidelines on Presidential protection, circa 1963 or before, as is always referred to by many researchers, in particular Fletcher Prouty?

Have you ever seen, heard of, or do you possess an actual copy, or is this just more or less an assumption on some researchers part that such a manual should exist?

If you know of such a manual, I would like to obtain a copy or photocopy. Perhaps you could help?

Thanks for your help and I wish you a happy and healthy New Year.

Sincerely

Todd

Never heard of it. Suggest you make a FOIA request for it of the Secret Service. All you have to do it write it a letter saying it is under DFOIA and give an adequate descfiption of what you want. If there is a cost they'll tell you.
